ANALYST, HEALTH ECONOMICS AND HTA

Location: Cambridge office/Hybrid
Salary: Competitive

Due to ongoing success and internal growth, we are looking for an Analyst to join our Health Economics and HTA team. Cogentia is a specialist consulting company focused on Health Economics and Market Access within the Life Sciences industry, an area that is of increasing importance to pharmaceutical, biotech and medtech companies and to National health systems around the world where their products are used.
Cogentia works with a range of clients, across many different therapy areas and technologies. As an Analyst, you will play an integral role in multiple project teams across our client project portfolio.

Responsibilities

As an Analyst, you will

- Contribute to research and analysis in a range of practice areas, in particular:
  - Desk research
  - Targeted literature reviews
  - Conceptual and early economic model development
  - Adaptation of economic models
  - Health Technology Assessment (HTA)
- Analyse qualitative and quantitative data
- Conduct desk research for ongoing projects as well as proposal developments
- Contribute to primary research programmes with healthcare payers and providers
- Identify and liaise with targeted stakeholders for primary research projects, and maintain associated processes and databases
- Support the development of clear hypotheses and insights from the research
- Contribute to high-quality project deliverables including reports, models and presentations
- Liaise with clients to provide project updates and deliverables

About you

Essential

- A bachelor's degree (at least 2:1) in a life sciences subject (e.g. medicine, physiology, biochemistry, pharmacology, pharmacy)
- Excellent written and verbal communication skills, and strong interpersonal skills, including effective listening and negotiation
- Strong analytical skills: you enjoy a mix of qualitative and quantitative research and are detail-oriented
- Ability to manage multiple, complex problems effectively and to work to strict project deadlines

Copyright © 2021

- Ability to work individually and as part of a team
- A proactive, resourceful approach, with a desire to take on new challenges
- A passion for learning and development
- Eligibility to work in the UK

Desirable

- A higher degree in a relevant subject area (e.g. MSc in Economic Evaluation)
- Knowledge and experience gained from working within the life sciences, pharmaceutical or biotech industry, or within a consultancy setting

What we offer

- A competitive salary and benefits package
- 25 days annual leave plus the standard public holidays
- A flexible hybrid working policy that supports a healthy work-life balance
- A great central Cambridge location and a friendly and supportive work environment

How to apply

To apply, please email your CV along with a covering letter to recruitment@cogentia.co.uk, quoting "Analyst, Health Economics and HTA" in the subject line.

Cogentia is an equal opportunities employer. We welcome applications from all suitably qualified candidates and will make reasonable adjustments during the recruitment process on request.
